Biography

My mosaics are inspired by examples I have seen on my travels in the UK, Italy, France, Spain, Turkey and the USA; and by the nature of the glass itself. My work is characterised by expressive colour, fluid lines and attention to detail. I often find inspiration in music and poetry, and enjoy exploring ethereal and celestial themes.

I have been Artist-in-Residence at Chester Cathedral since 2019 - it is a joy to spend time in such a beautiful and inspiring building. I never tire of the mosaics, carvings and stained glass; and there is always something new to discover as I wander around with my camera and sketchbook. I recently curated Constellations, an international exhibition of contemporary mosaics at the cathedral.

I have created mosaics for public and private spaces, including: The Countess of Chester Country Park, Ellesmere Port Hospital, The Countess of Chester Hospital and a number of local schools and churches.
