## Biography

Liverpool based, international mural artist Jessica Arrowsmith Stanley, AKA Jazz Stan, works with a mix of media in a range of styles and sizes.

A fusion of fine art technique and contemporary sensibilities underpins her aesthetic, resulting in bold, engaging works.

The work has recently expanded to include elements of abstract expressionism, working with more natural tones and automatic mark-making to communicate the artist's perspective more clearly and portray her visual meditation.

Typically anchored in the balance between movement and stillness, warm and cool, structure and ephemera. Jazz Stan's work, no matter the brief or direction, is rooted in the desire to depict a sense of play and joy, to brighten a sometimes grey landscape.
