

Claire House

CHILDREN'S HOSPICE

Join us on Chester's Art Beat walking trail - spread across a number of venues, over 25 artists will be designing, creating, and making art live before your very eyes. Learn about the process from painters, textile artists, potters and more. Experience the creative process, with opportunities to ask questions, purchase, and commission unique artworks.

We will also be raising much needed funds for Claire House Children's Hospice, who help seriously and terminally ill children live life to the full.

Lawren, the lead play specialist at Claire House said:

"It's full on memory making and the great thing is that when our children go home, they take loads of artwork with them so parents have that forever and every picture lasts a lifetime."
